**Delicious & Sons Introduces the Essence of Mediterranean Cuisine to the U.S.**

*Real Mediterranean flavors, no compromises: rigorous ingredient sourcing, all natural, organic, non-GMO, gluten-free, vegetarian and vegan*

**New York, NY** (September 22, 2016) [Delicious & Sons](#), the Barcelona specialty food company, is launching its full line of authentic Mediterranean sauces, oils, spreads, dips, glazes, and condiments in US markets. Now available on shelves at grocery stores and specialty food markets, Delicious & Sons's family of products expresses quality and flavor, warmth, and passion for authentic Mediterranean food. A palate steeped in tradition, Delicious & Sons products are crafted in accordance with the demands of today's discerning consumers, who seek products that align with both their conscience, and their palate.

Based in Barcelona, Spain, Delicious & Sons was founded by Mónica Navarro and Ricky Mandle, a wife and husband team who created the internationally awarded Barcelona brand Delishop. Ten years after creating Delishop, the couple has created Delicious & Sons, the brand they've always dreamed of, with a mission to make the highest quality natural, organic, non-GMO, vegetarian and vegan products widely available, accessible and affordable. Delicious & Sons is rooted in the DNA of the Mediterranean, and produced to contemporary gourmet standards.

The end result is delicious foods that are unpretentious and accessible, authentically Mediterranean, and meticulously crafted.

"I was born on the Mediterranean Sea, and it was on the Mediterranean that Ricky and I decided to dedicate ourselves to our passion: food," says Mónica. "With Delicious & Sons, we're creating a family of products – real, honest, wholesome products – that are delicious in the Mediterranean style, and that we can enjoy knowing they are made to the highest standards."

Ricky adds that, "We always knew that quality is indispensable, and so our ingredients are locally sourced, organic, non-GMO, gluten-free, vegetarian, and vegan. We travel to each location to control the origin of our ingredients, from every tomato to the last drop of olive oil."

Those looking to bring authentic Mediterranean flavors into their home can initially find Delicious & Sons's products in specialty markets in the New York City tri-state area. In the near future, products will be available on Amazon.com, and on store shelves in other US regions.

###

#### **About Delicious & Sons**

Delicious & Sons is a Mediterranean food brand created by founders Mónica Navarro and Ricky Mandle, of Barcelona-based and internationally awarded brand Delishop. Delicious & Sons was created in accordance with today's market, satisfying consumer's desires for a gourmet product that is also organic, all-natural, non-GMO, gluten-free, vegan and vegetarian. The product line currently consists of 17 different sauces, spreads, and olive oils, created with authentic recipes and produced in place of origin. Delicious & Sons is a brand for almost all eating habits and lifestyles, offering healthy and natural products with superbly attractive packaging. For more information, please visit [www.deliciousandsons.com](http://www.deliciousandsons.com).

The product line's packaging was created in collaboration with Clase bcn, one of the top agencies for packaging design in Barcelona. The final design represents some of Delicious & Sons's core values, including a sense of closeness, honesty, and dedication to the joy of the Mediterranean eating experience.
